

# AirGo. The Coolest Party Guest.

The rugged, 8-ft vertical AirGo™ delivers air flow half the length of a football field, yet is quiet enough to carry on a friendly conversation directly in front of the fan. From the heavy-duty steel tubing and the rigid screen, to the high efficiency motor and gearbox, AirGo is made from all-welded construction by hand for unmatched durability. From construction sites to parties, AirGo delivers the breeze without delay – where and when you need it most.

### Rental Tough

- Heavy-duty steel tubing and rigid screen construction
- Powder coated “wedding white” for resistance to weather and corrosion

### Low Maintenance

- Remove top cage quadrant for easy cleaning of the motor and airfoils
- Spray with water to keep AirGo looking its best

### Simple Operation

- Plug into any 110 V, 15 A receptacle
- Simple variable speed adjustments with the push of a button

### Low Noise

- Even at full speeds, conversations can be conducted easily in front of fan
- 8 times quieter than 34 inch high velocity fan

### Performance

- Approximately 6,000 square feet of coverage area
- Cooling breeze measured at 140 ft – that’s almost half a football field!
- Produces 3 times more air flow and uses 1/3 the energy of a 34 inch high velocity fan

### All-Terrain Package

- Over-sized tires help AirGo maneuver over rough terrain
- Foam filled tires eliminate annoying flats and the need to monitor air pressure
- Four-wheel steering provides a smaller turning radius, improved cornering performance and steering response for effortless, one-person maneuverability

*\* Available without all-terrain package. Call for details.*

# TECHNICAL SPECIFICATIONS

Technical Specifications	
Dimensions (W x H x D)	98" (2490 mm) x 100" (2540 mm) x 44.5" (1130 mm)
Cage	OSHA compliant
Controller	AirGo variable speed control
Input power	100-125 VAC, 1 $\Phi$ , 15 A
Motor	0.5 HP (0.37 kW)
Maximum speed	180 RPM
Maximum amps	12 A
Sound level (maximum speed)*	43.2 dBA
Weight (as shown)	600 lbs (272 kg)

\*dBA as measured 20' from fan center, background noise ~ 33 - 36 dBA

- Air speeds are the average velocity for each zone
- Air speeds were measured 67" from the floor
- Perceived cooling (parentheses) based on ASHRAE Thermal Comfort Tool (air temp 85°F, relative humidity 50%, clo 0.5)

May be covered by one or more of the following U.S. Patents: 6,244,821; 6,589,016; 6,817,835; 6,939,108; 7,252,478; 7,284,960; D587,799; D607,988 and other patents pending.
